- The first column represents the Capital Budget and Improvement Program from last year's approved (2021-2022) budget cycle and does not represent new spending
- The second column (22-23 shaded) represents the Capital Budget for the 2022-2027 cycle and is the only year within the table that will become **binding** upon adoption
- Any discrepancy between the departmental requests and CIP as presented is a result of deliberation with planning staff, directors, the administration, and the City Plan Commission
- Unless otherwise specifically noted, all requests that have been entered into the 2022-2023 Capital Budget have *existing* bonding authority from the voters by means of a voter referendum.
