Re: **661 Park Project**
Ordinances 4-22-04 and 4-22-05
Major Land Development Master Plan
Comprehensive Plan
Zone Change

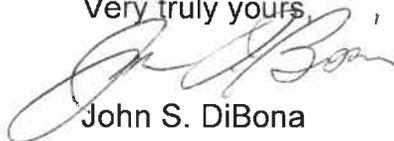

Joshua:

As you are aware, Paul Bannon of BETA Group, Inc. has conducted a traffic study relating to the proposed development at 661 Park Avenue, Cranston, Rhode Island.

As you are also aware, Patrick Tierney, Transportation Engineer of the firm of Fuss & O'Neill has forwarded his peer review of that traffic study to Doug McLean on May 26, 2022. After my review of this letter, I note that the several comments made by Fuss & O'Neill would require my client more time for review and preparation.

Accordingly, I would like to request a continuance on behalf of my client of the hearings which are scheduled for **June 7, 2022** regarding the two ordinances (4-22-04 and 4-22-05) and the MLD Master Plan Application until **July 12, 2022**.

Very truly yours,

John S. DiBona
