20 Goddard Drive
Cranston, RI 02910**

**Re: 20 Goddard Drive, Cranston, RI (Plat 13 Lot 39)
Water Availability**

The Hon. Jorge O. Elorza
Mayor

Ricky Caruolo
General Manager

To Whom It May Concern:

In response to your request May 6, 2022 regarding water availability at the above referenced location, please be advised that Providence Water currently owns and maintains an 8-inch AC (transite) water main running along Goddard Drive. This main has a static pressure of approximately 65 psi. New water service installations are required for this location.

Presently, there are sufficient reserves in the Providence Water system for this commercial development. Please be advised that before the water service connection can be made to the Providence Water system, an evaluation of demand must be performed in order to correctly size the diameter of the domestic service line and water meter size. The fire service line will be sized by your fire suppression consultant. On-site private hydrants will require a Protectus III Fire Service Meter. The cost associated to install the water services and water meters is the responsibility of the applicant.

The applicant must complete and submit Water Service Application for Domestic Service for review and approval. Please include a Site Utility Plan and Plumbing Plan when submitting your application.

Should there be any questions regarding this information, please contact the Providence Water Engineering Technical Service Department at (401) 521-6300 extension 7213 for assistance.

Respectfully,
PROVIDENCE WATER SUPPLY BOARD

Michael A. DiNobile
Manager of Technical Services
