Re: Council Redistricting Status Report

Dear Honorable Members of the Cranston City Council:

The Cranston Redistricting Commission was created by the City Council on March 22, 2021, for the purpose of reviewing 2020 Census data and preparing a draft redistricting plan for the Council's consideration that complies with the City Charter, applicable state and federal law, and legal precedent. Since its creation, the Commission has held five public meetings – including two advertised public hearings – related to this mission, and established an interactive redistricting portal on the city website.

Over the summer, the Commission solicited public feedback and drafted a neighborhood map of the city for use in redistricting, in order to comply with new Charter provisions to respect neighborhood boundaries and communities of interest in the redistricting process. Since August, the Commission has been reviewing 2020 Census data, and, using the new neighborhood map as a guide, completed its first draft map, "Scenario A1," which was recently presented at a public hearing for comment on Oct. 6.

With preliminary work now complete, the Commission will continue to accept public comment and map scenario ideas while monitoring activities at the state level, which may have significant impacts on future draft map scenarios. The Rhode Island Special Commission on Reapportionment is meeting weekly, and is expected to have its own draft maps of state districts available next month. In January 2022, the full General Assembly will review those maps, and is expected to vote on them before the February recess. At that time, the Cranston Redistricting Commission must quickly complete its final written report and draft maps to present to the City Council, so the Council itself can review, receive public feedback on, and approve a final map by the end of April. The final map, as an ordinance, is also subject to approval by the Mayor, and, procedurally, will be ratified by an Act of the General Assembly in May, ahead of June candidate declarations. The timeline for this process is particularly tight.

The attached maps, 2020 Census data, and reports serve to better explain the work undertaken by the Commission to date, and detail some of the rationale used in developing the Scenario A1 draft map thus far. If you have any questions, please do not hesitate to reach out at any time.

Very truly yours,

Nicholas J. Lima
 Registrar / Director of Elections
 On Behalf of the Cranston Redistricting Commission
