**RE: NATICK AVENUE SOLAR  
PEER REVIEW OF LANDSCAPE PLANS FOR NATICK AVENUE SOLAR, REVITY ENERGY, LLC  
FINAL PLAN REVIEW**

Dear Mr. Pezzulo,

I am pleased to provide this review for the final landscape plans dated 11.9.21 and Vegetative Maintenance Guidelines dated 12.30.21, submitted to satisfy conditions for the Natick Avenue Solar submission to the City Plan Commission.

The conditions for approval of these plans included several related to the landscape plans.

No. 4: satisfied with the note on sheet 6 indicating Area E trimming height of not less than 18'.

No. 5: satisfied with the 2 typical D area 50' patterns in place of the Area F shown on the sheet 1 plan and revisions to the plant schedule shown on sheet 6.

No. 14: condition of a Vegetative Maintenance Plan is satisfied with the 12.30.21 submission titled "Vegetative Maintenance Guidelines".

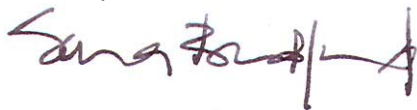

No. 15: condition satisfied with the 12.30.21 revision to the "plantable seed bed material" description. Seed mixes indicated on sheet 6 are acceptable.

**Conclusion**

The concerns have been satisfactorily addressed.

If there are additional questions, please let me know.

Sincerely,

Sara Bradford, RLA
