

## WEB LINKS/TOOLS

- ArcGIS Survey123 is an intuitive form that we link to our websites. This survey captures data on the web or with mobile devices. The map allows you to pinpoint locations where you can provide site-specific comments. We can choose which basemap and locator is used in the survey (e.g. Open Street Map) or define contents of the basemap using ArcGIS Online.

**Question for client:** What would you like residents to identify through this map? (examples: places you want to protect, places that need improvement). Locations can be tied to relevant topic areas. Any preference for basemap/content in the survey?

### **Map a Comment:**

(Map of the City of Cranston would be displayed within this section.)

*Base map layers from City GIS to be used:*

- *Neighborhoods*
- *Zoning*
- *Streets*
- *Plat Map – with personal identifiers removed*

### **Exercise Description:**

Please drop a pin on the map and provide a comment related to a topic area of the Comprehensive Plan as identified using the dropdown menu below. Please comment with as much detail as possible, include which neighborhood, which streets or areas in Cranston you are referring to.

*Your comments may include, but should not be limited to, information or ideas such as:*

- Changes you would like to see in your neighborhood or elsewhere over the next 5-10 years;
- Areas or sites you would like to see protected, enhanced, or preserved;
- Areas which could be rezoned to better reflect their current or desired use;
- Areas which you see opportunities for new development or redevelopment;
- Places you enjoy and what makes them attractive to you;
- Areas which have the potential for new businesses, job creation and economic growth;
- Natural habitats or features which should be protected, enhanced, or preserved;
- Areas which represent important cultural or historical significance to you;
- Historic and/or cultural areas, sites, or buildings at risk that you feel need more attention or preservation;
- Areas of concern regarding the level of availability of public utilities or services (Water, Sewer, Police, Fire, Schools, Libraries, Indoor/Outdoor Recreation Facilities, Community Centers, etc.);
- Areas which face issues related to water quality or flooding;
- Recreational Areas that you feel need expansion or improvement;
- Streets or Intersections which could be better served by sidewalks, bicycle facilities, or bus stops;

- Streets or Intersections which feel unsafe or inefficient to you;
- Possible locations of renewable energy installations;
- Farmlands or Agricultural Spaces which should be preserved;
- Areas suitable for community gardens or urban agriculture.

**(Dropdown menu) Please indicate the topic of your mapped comment:**

*Dropdown selections:*

- Land Use
- Housing
- Economic Development
- Natural Resources
- Historic & Cultural Resources
- Services, Facilities, & Water Supply
- Outdoor Recreation & Open Space
- Circulation (Transportation)
- Sustainability/Energy
- Agriculture & Food Systems
- Natural Hazards & Climate Change

## Provide us with Your Ideas for Specific Locations

This map allows you to pinpoint locations where you can provide site-specific comments.

### What Works? What Doesn't? What Opportunities Exist?

Show us locations in North Providence where you feel things are working or where you think a problem exists. Do you have an idea or see opportunities? Let us know on the map.

### Comments

- Click on the map or type in a street address to select the location that you want to comment on.
- Drag the blue pointer onto a place on the map that you would like to call out.
- Provide us with your thoughts on the location you've selected in the box titled "Type your comment here."
