The undersigned, being duly sworn, upon oath, depose and state as follows:

I _____ am the owner of the property

located at: _____ Cranston, RI.

On _____, I applied for and received a:

Building permit # _____ Electrical permit # _____

Mechanical permit # _____ Plumbing permit # _____

from the City of Cranston Building Official.

I as owner will undertake all work required to be registered without the assistance of others who are compensated.

I will ensure that all the work performed will be compliant to all related codes and that I will make all changes needed to correct any code violations.

I will ensure that the work is inspected by the proper code officials and will obtain all approvals prior to its use.

In the event that I decide to hire a contractor to perform work relative to the above mentioned permit(s), I will hire a licensed and / or registered contractor who will provide their license and / or registration number in person to the Building Official's office and sign the permit.

§ 23-27.3-113.3.1 Applications for work requiring licensed workers.

(a) Prior to the approval of a permit for which a state law requires licensed persons to be responsible for the plumbing, mechanical, electrical, and fire alarm work, the licensed person(s) shall show the building official a recognized form of identification from the state licensing boards and sign the permit. The local official may verify the work is being done properly in the following manner:

(1) The local official may at any time request the workers on the project to show proof of his or her license to perform the work, or

(2) If the worker is not a licensed person, then the local official may take whatever remedial actions allowed by the code pertaining to the improper work found in violation. The workers found to be doing work without a valid Rhode Island license shall be reported to the appropriate licensing board for sanctions and penalties.

(b) The owner/occupant of a single family dwelling shall be exempt from the requirements of subsection (a), but must obtain a permit, be inspected by the local official in accordance with the provisions of the code, and obtain approval of the work prior to use of the completed alteration. Additionally, in order to be exempt from the licensing requirements of subsection (a), the owner/occupant must undertake the work required to be licensed without the assistance of others.

§ 23-27.3-113.3.2 Applications for work requiring registered workers.

(a) Prior to the approval of a permit issued to any contractor for work which state law requires that said contractor be registered, the registered contractor shall show the building official a recognized form of identification from the contractors' registration board and sign the permit. The local official may verify the work is being done properly in the following manner:

If the worker is not a registered person, then the local official may take whatever remedial actions allowed by the code pertaining to the improper work found in violation. The workers found to be doing work without a valid Rhode Island registration shall be reported to the appropriate registration board for sanctions and penalties.

12.04.040 Official street map—Certain street improvements required prior to issuance of building permits.

No permit for the erection of any building shall be issued unless the entire frontage of the building lot abuts a street which has been placed on the official map giving access to the proposed structure, and before a permit shall be issued, such street shall be certified to be suitably improved, or such suitable improvements shall have been assured by means of a performance guarantee, in accordance with rules and regulations duly adopted. Where the enforcement of this section would entail practical difficulty or unnecessary hardship, or where the circumstances of the case do not require the structure to be related to a street, the board may, in a specific case and after a public hearing for which reasonable notice has been given to all interested parties and at which parties in interest and others shall have an opportunity to be heard, in accordance with the rules of the board, make reasonable exceptions and issue a permit subject to conditions that will assure adequate access for firefighting equipment, ambulances and other emergency vehicles necessary for the protection of health and safety and that will protect any future street layout shown on the official map. (Prior code § 27-21)

12.04.050 Issuance of a permit for occupancy.

No permit for the occupancy of any building shall be issued unless the entire frontage of building lot shall be suitably improved in accordance with city road construction standards, including but not limited to sidewalks, curbing, pavement, and such other utilities as may be available.

Where the enforcement of this section would entail practical difficulty or unnecessary hardship, the building inspector, with the approval of the director of public works, may in a specific case make reasonable exceptions. (Prior code § 27-21.1)

15.04.160 Certificate of occupancy and surety for public improvements.

At the time of issuance of a building permit, the building inspector shall require the owner of the property to post surety in the amount of three thousand dollars(\$3,000.00). Said surety shall be in the form of a bond, treasurer's or cashier's check and shall remain in full force and effect until such time as a certificate of occupancy is issued by the building inspector. Said surety shall be posted to assure that all improvements: i.e. curbing, sidewalks, driveway aprons, drains, sewers, erosion control measures, street cleaning and sweeping, debris removal, on site landscaping and drainage etc. are properly installed and have not been damaged during construction of said structure. Prior to the issuance of a certificate of occupancy, the building inspector shall inspect the property in question to determine if all construction meets with the building code of the city. At the discretion of the building inspector, he or she may request such other city departments to assist in the inspection to assure that all regulations and requirements of the city have been met.

Where the enforcement of this section would entail practical difficulty or unnecessary hardship, the building inspector, with the approval of the director of public works, may in a specific case make reasonable exceptions. (Prior code § 5-13)
